

FLORIN MIRON

Junior Web Developer / Front-End & Full-Stack Developer / Level 5 Diploma in Web Applications (Distinction)
London, UK | mironflorin123@yahoo.com | [Website](#) | [GitHub](#)

Summary

Junior Web Developer with two years of project-based experience creating responsive websites and applications. Background spans public safety and residential property management, bringing discipline, clear communication, and stakeholder care into technical work. Known for building reliable, well-documented solutions that enhance usability and performance, with a growing portfolio showcasing both front-end and back-end development. Ready to thrive in new role.

Core Competencies:
Front-End Development & Responsive Design | Cross-Browser Compatibility & Accessibility Standards | UI Implementation | Version Control & Collaboration Workflows | Back-End Development | RESTful API Development & Integration | Database Management & SQL | Debugging & Troubleshooting | Testing & Quality Assurance | Technical Documentation & Reporting

Professional Experience

Independent	London, UK
<i>Junior Web Developer</i>	11/2022 – Present
- Design, develop, and maintain 6 responsive web projects using HTML, CSS, and JavaScript, applying user-centric design principles and modern frameworks to ensure functionality across devices and browsers. - Apply version control best practices with Git and GitHub, documenting the development lifecycle and maintaining clear commit histories to support collaborative workflows. - Perform comprehensive debugging, testing, and code reviews to reduce downtime, resolve layout and functionality issues, and improve overall application stability. - Produce detailed project documentation, including technical notes and feature specifications, to support future maintenance, scalability, and knowledge transfer.	

Chiltern Court	London, UK
<i>Porter</i>	01/2025 – Present
- Coordinate daily front-of-house and administrative operations for a high-profile residential building housing ~400 residents, including visitor registration, key management, parcel handling, and accurate record-keeping. - Deliver consistent resident and visitor support by triaging and resolving service requests, liaising with internal stakeholders (board of directors, housekeeping) and external contractors, and escalating issues where required. - Monitor building safety and functionality through perimeter patrols, incident response (leaks, mechanical and electrical faults, emergencies), and clear handover reporting as part of a rota-based team.	

Focsani Penitentiary	Focsani, Romania
<i>Prison Officer</i>	09/2018 – 12/2024
- Managed high-risk incidents from response through resolution, including security breaches, medical emergencies, protests, and hostage situations, while ensuring safety across detention regimes from maximum to minimal security. - Produced reports and documentation to support legal and operational processes, carried out perimeter surveillance and inmate escorts (judicial, medical, external work), and upheld strict procedural, ethical, and regulatory standards.	

Education & Professional Development

Level 5 Diploma in Web Applications Development | New City College – London, UK

- Achieved Distinction in all assessed projects, covering both front-end and back-end development with technologies including HTML, CSS, JavaScript, Python, Flask, Django and Git/GitHub.

National School of Penitentiary Officers | National Administration of Penitentiaries – Romania

- Graduated with overall grade 8.98/10, completing training in criminal law, psychology, computer science, and professional ethics, with emphasis on discipline, procedure, and security management.
